WHAT IS MY TIME, OUR PLACE AND THE OUTCOMES?

The Council of Australian Governments has developed *My Time, Our Place – Framework for School Age Care in Australia*. The Framework) to assist educators to provide children with opportunities to maximise their potential and develop a foundation for future success in life.

In this way, the Framework will contribute to realising the Council of Australian Governments vision that:

“All children have the best start in life to create a better future for them and for the nation.”

Working in collaboration with children and in partnership with families, educators use the Outcomes to guide their planning for children’s wellbeing and learning.

The Framework conveys high expectations for all children’s play and leisure activities in school age care settings. It communicates these expectations through the following five Outcomes:

Outcome 1: Children have a strong sense of identity- showing interest in other children and being part of a group

Outcome 2: Children are connected with and contribute to their world – take action to assist other children and to participate in social groups

Outcome 3: Children have a strong sense of wellbeing – children show self-regulation and manage their emotions in ways that reflect the feelings and needs of others

Outcome 4: Children are confident and involved learners – initiate and contribute to play and leisure experiences emerging from their own ideas

Outcome 5: Children are effective communicators
